Elizabeth,

I think that Kimberly makes some good points about language that we use to characterize conventional pesticides (that we have also registered and determined do not cause unreasonable adverse effects).

I'm attaching my comments to you from yesterday in order to share them with the larger group as well. Some of the comments are similar to some of Kimberly's.

Chris has not yet had a chance to look this over, and he may want to weigh in. Will you be sending around a revised version?

Thanks!

- Ben

Elizabeth,

A few comments and edits to consider for inclusion. Overall I think it reads well!

Thanks,

Chris

**Subject:** draft Qs+As for CF update rollout

Hi, All. Please find attached my first draft of some Qs+As for the roll-out of the CF Update. The focus of these Qs+As is the agreement on insects. As you probably know, Jim wants the agreement to be highlighted in the roll-out. So we can probably expect some interest.

Do you think I hit all the correct questions? What about the answers? I have not yet shared with FEAD. I have spoken with Eric of FDA about these – he said he liked the questions and gave a few ideas on responses.

Thanks.
